The following is a verbatim release of the regulations heard at the open hearing on Wednesday, June 7th. With possible minor changes, these regulations will go into effect about the middle of July.

MASSACHUSETTS DEPARTMENT OF PUBLIC HEALTH PROPOSED REGULATIONS FOR THE CONTROL OF ATMOSPHERIC POLLUTION IN THE LOWER PIONEER VALLEY AIR POLLUTION CONTROL DISTRICT

Pursuant to Sections 142B & 142C, Chapter 111, General Laws

Regulation 1. Definitions

When used in these regulations or in communications, notices, or orders relative thereto, the following words and phrases shall have the meanings ascribed to them below:

- 1.1 AEROSOL means a system of solid or liquid particles dispersed in a gas.
- 1.2 AIR CONTAMINANT includes, but is not limited to dust, fly ash, gas, fume, mist, odor, smoke, vapor, pollen, microorganism, radioactive material, ionizing radiation, any combination thereof, or any decay or reaction product thereof.
- 1.3 AIR CONTAMINATION SOURCE means any source at, from, or by reason of which any air contaminant is emitted directly or indirectly into the ambient air space.
- 1.4 ATMOSPHERIC POLLUTION means the presence in the ambient air space of one or more air contaminants or combinations thereof in such quantities and of such duration as to;
 - a. cause a nuisance;
 - b. be injurious, or be, on the basis of current information, potentially injurious to human or animal life, to vegetation, or to property;
 - c. unreasonably interfere with the comfortable enjoyment of life and property or the conduct of business.
- 1.5 AMBIENT AIR SPACE means the unconfined space occupied by the atmosphere above the geographical area of the district.
- 1.6 CHART means the Ringelmann's Scale for grading the density of smoke, as published by the United States Bureau of Mines, and as referred to in the Bureau of Mines Information Circular No. 6888 or superseding publication, or any smoke inspection guide complying with the design and test specifications of, and used in accordance with, the provisions of Title 42, Chapter 1, Subchapter F, Part 75 of the Federal Register, or the "Smoke-scope" as manufactured by the Mine Safety Appliance Company, Pittsburgh, Pennsylvania, U.S.A.
- 1.7 DEPARTMENT means the Department of Public Health of the Commonwealth of Massachusetts.
- 1.8 DISTRICT means the Lower Pioneer Valley Air Pollution Control District (abbreviated LPVAPCD).
- 1.9 DUST means finely divided solid matter formed, usually, from larger masses by mechanical attrition or other applied energy.
- 1.10 EMISSION means a discharge or release to the ambient air space of any air contaminant.
- 1.11 FLY ASH means the aerosolized solid component of burned or partially burned fuels. "Soot" and "cinders" are included within the meaning of the term "fly ash."
- 1.12 FUME means a solid or liquid aerosol resulting from chemical reaction or from the condensation of vapors produced during combustion, distillation, and sublimation.
- 1.13 GAS means that state of matter having neither independent shape nor independent volume but tending to expand and diffuse infinitely.
- 1.14 HAND-FIRED FURNACE means any furnace in which fresh fuel is manually thrown or placed directly on the hot fuel bed, but does not mean stoves, or other equipment used for the cooking of food, or fireplaces.
- 1.15 INCINERATOR means any article, machine, equipment, contrivance, structure or part of a structure used primarily to dispose of combustible wastes by burning.
- 1.16 IONIZING RADIATION means any electromagnetic or particulate radiation capable of producing ions, directly or indirectly in its passage through matter.
- 1.17 MIST means a liquid aerosol formed by the condensation of liquid vapor or formed by the atomization of liquids.
- 1.18 ORDOR means that property of gaseous, liquid, or solid materials, that elicits a physiologic response by the human sense of smell.
- 1.19 OPEN BURNING means burning under such conditions that the products of combustion are emitted directly into the ambient air space, and are not conducted thereto through a stack, chimney, duct, or pipe. Open burning includes underground fires and smoldering (underground).
- 1.20 PERSON means an individual, partnership, association, firm, syndicate, company, trust, corporation, department, bureau, agency, political subdivision, or any other entity recognized by law as the subject of rights and duties.
- 1.21 POLLEN means the fertilizing element of vegetation.
- 1.22 RADIOACTIVE MATERIAL means any material, (solid, liquid, or gaseous) which spontaneously emits ionizing radiation.
- 1.23 REFUSE includes all of the types of solid waste material of a municipality. It is made up of rubbish-garbage, ashes, construction wastes, industrial wastes, commercial wastes, demolition wastes, agricultural wastes, abandoned vehicles, any other useless, unwanted, or discarded solid material. Domestic refuse is rubbish and garbage. The term rubbish refers to paper, cartons, boxes, barrels, wood, excelsior, tree branches, yard trimmings, furniture, bedding, dunnage, tin cans, crockery, dirt, glass, and minerals originating in households, restaurants, institutions,

Janice L. Bryan

CANTON, N.Y. — St. Lawrence University today announced the names of 42 young men and women from Massachusetts who will enter the freshman class in September. Among them is Janice L. Bryan, 20 Monroe St., Agawam.

Taxpayers Support Legislation To Reorganize State Police

Appearing in support of legislation (Senate No. 1242) to reorganize the state police elements of the Department of Public Safety, John C. Driscoll, director of legislative relations for the foundation, said, "The Massachusetts State Police operates under two handicaps without precedent in the police field."

The spokesman for the Massachusetts Taxpayers Foundation told the Committee on State Administration at a State House hearing today the state police does not have a full time chief administrator and almost half of its detectives are "apart and aloof from the main force."

"This queer arrangement has been frequently criticized," he said. "For the most part, Senate No. 1242 is designed to remove these impediments."

"One can search and find a chief of police, in some of the small towns, without a department or force under him," the taxpayers' spokesman noted. "But the Massachusetts State Police is the only police department we know of which is, in effect, without a chief."

Senate No. 1242 provides for a full time professional director of state police.

The second important feature of the bill eliminates the separate identity of the detective branch. "The present split investigate system was not planned. Logic has no part in it. It is an historical accident. Every consequential study of the state police is critical of the disorder it creates," Driscoll noted.

The taxpayers' spokesman said, "This measure is not a reorganization in the true sense of the word. It is rather a belated strengthening of an organization. The cost, in the form of one man's salary, is easily worth the return - full time management and integrated operations."

LYNCH NAMES AWARD WINNERS

Register of Deeds John Pierce Lynch today announced the names of the recipients of the 10th Annual Hampden County Internship Training Awards.

These students were selected by a special Registry committee from among 45 applicants. The winners are: Miss Susan A. Gallica of 40 Forest Hills Road, East Longmeadow, Mass. and Mr. Michael L. Fay of 58 Steuben St., Indian Orchard, Mass.

The successful applicants will work at the Hampden County Registry of Deeds this summer, learning all phases of Registry work.

ST. ANTHONY CELEBRATION SATURDAY EVENING

St. Anthony Society, Inc., 33rd, Annual Feast Day Celebration will be held on Saturday, June 17, 1967, in St. Anthony's Hall, 646 Springfield Street, Feeding Hills, Mass. Guest Speaker will be Rev. Dominic A. Ruscetta, C.S.S.

Dinner will be served at 6:30 p.m. Dancing will be from 8:00 to 12:00, music by Dean Jevons Trio.

Honorary chairmen are President Aldo Lombardi and Rose Baevich, president of the Women's Auxiliary. Paul D'Amato is general chairman.

Scholarship Awards will be given to Holly Gibson and Paul Faits, members of the Class of '67, Agawam High School.

Ticket Chairman Nick DePalo assisted by Nick Maratea, Louis Moccio, Anthony Buoniconti, Anthony DiDonato. Food Committee, Frances DePalo, Chairman, Theresa Depico, Philomena Mercadante, Amelia Szczebak, Margaret Kalenkowitz, Esther Gilli, Angelina Grimaldi, Esther DePalo, Anna Mazzalino and Chef Joe DePalo.

Tickets may be purchased from members of the committee or at the door.

AGAWAM JR. WOMEN WILL HOLD PICNIC

Agawam Jr. Women's Club will hold an informal gathering in the form of a picnic next Tuesday, June 20th, at 6:30 at Mrs. Louis Mercadante, 125 Franklin Street.

Purpose of the picnic is for members to have a better understanding of General and State Federation and of our own local club. Girls are reminded to wear casuals.

Crane Reports \$26 Million Increase In State Cash Balance

A 26 million dollar increase in the State's cash balance at the end of May was announced today by State Treasurer Robert Q. Crane in his latest monthly report on the financial condition of the Commonwealth.

Treasurer Crane reported that the State's cash balance at the end of May was \$72,082,600.40 as compared to \$45,637,817.55 at the end of April.

His latest report lists total disbursements for May at \$366,177,476.74 and total receipts for the same month at \$392,622,259.59.

State Treasurer Crane states that the Commonwealth's bonded indebtedness is over the one billion dollar mark. At the start of June, he said, Massachusetts' bonded indebtedness was \$1,072,308,000. A year ago at this time, he adds, the bonded indebtedness was \$991,741,000.

MT. LAUREL WEEK NOW OFFICIAL

The period from June 24 through July 2 has been officially designated as "Laurel Week" for the lower Westfield River valley by the Westfield River Watershed Association, which annually sponsors this event. This year's bloom is predicted to be from good to excellent by Percy M. Elton of Southwick, who has directed this event for several years.

The Watershed Association has prepared a special brochure giving a brief history of the "A.D. Robinson Memorial Laurel Tour" and including a map of suggested routes to follow. These will be available at the Westfield and West Springfield Chamber of Commerce offices and also at several places of business in the lower valley. They can also be obtained by writing the Westfield River Watershed Association, P.O. Box 232, Huntington, Mass., 01050, or the above Chamber offices.

Directional signs will be placed at key highway intersections along the suggested tour route.

Depending upon weather conditions, the peak of Laurel bloom will extend through the July 4th holiday at higher elevations along the designated route and in other parts of the Westfield Valley.

The brochure will recommend that those who do follow the tour pay a visit to Stanley Park in Westfield, entrance to which is on the designated route.

Responsibilities of Motorists Near Horses, Other Animals

Motor vehicle operators are reminded by Registrar Richard E. McLaughlin that an existing law requires that they STOP when driving TOWARD a horse or other draft animal and remain stationary to allow the animal to pass. When traveling in the SAME DIRECTION as the animal, drivers must use reasonable caution in passing.

Section 14 of the motor vehicle laws, rules and regulations also provides that a driver shall IMMEDIATELY STOP his vehicle and the motor propelling it - no matter in which direction he is heading - when approaching a horse or other draft animal being led, ridden or driven, IF the animal appears to be frightened or if the person in charge of the animal signals to do so.

"While collisions between motor vehicles and these animals are extremely rare, serious accidents to their riders may be caused if an animal bolts when frightened or startled by an automobile."

The registrar suggested that motor vehicle drivers use a great deal of caution and common sense when in areas near bridge paths or whenever they observe such animals.

Send in only \$1.00 and we'll put you on our mailing list for 1 year.

Classification Set For Mass. Waters

Thomas C. McMahon, Director of the Massachusetts Division of Water Pollution Control, told directors of the Westfield River Watershed Association at their meeting of May 31st at Tonelli's Little River Inn, Westfield, that classification of the Commonwealth's rivers and streams has been based upon the degree of water quality that can be rea-

sonably attained and maintained. He predicted a five to six year schedule for compliance within the Westfield River Valley.

Secondary treatment and chlorination of municipal sewage and industrial wastes will be necessary in most cases to meet the quality standards set for the Westfield Valley, McMahon said. He also suggested a possible recommendation to revise from the presently proposed "C" to a "B" classification the reaches of the west branch and the main river from Chester to its confluence with the Connecticut. That section of the Little River from

the Rtes. 10-202 bridge to the main river would remain in its present "C" classification.

McMahon reminded association directors that existing state laws permit water departments to establish local regulations for many recreational uses of drinking water impoundments and streams feeding them but not including swimming or other water-contact sports. There is widespread reaction against such a restriction within the drainage area behind the Littleville dam, which now provides swimming for hundreds of year-around and summer residents and transient visitors. WRWA directors predict that local economies will suffer with the imposition of restrictions against swimming.

During the business meeting which followed McMahon's talk, State Senator and WRWA director John D. Barrus was asked to review with the Commonwealth's Tax Division the possible impact a restrictive "A" classification may have on property assessments within the area. It was also voted that John C. Collins, Chief Engineer, Division of Sanitary Engineering, Mass. Department of Public Health, and officials of the Springfield Water Department be invited to meet with a committee of WRWA directors to discuss opportunities for and limitations on recreational activities within the drainage area behind the Littleville dam. Boards of

Selectmen of the towns immediately affected will be kept informed of developments.

Other actions taken by the directors included: Sponsorship of a "Natural Resources" field day during the latter part of September, tentatively on the property of Chimney Corners Camp in Becker; continued sponsorship of the A.D. Robinson Memorial Laurel Tour and official representation at the National Watershed Congress in Boston June 18-21.

HONESTY WINS PRAISE

A COMMITTEE TO GIVE OUR KIDS A BREAK

Miss Mary Fitzgerald, health educator in the Springfield Public Health Department, has been

elected chairman of the Western Massachusetts Ad Hoc Committee on Smoking. Mrs. Herbert F. Smith, director of the Berkshire County Chapter, Massachusetts Heart Association, was named

secretary.

At an organization meeting in the Yankee Pedlar Inn in Holyoke, attended by representatives of various private and public health agencies at which Louis Carvelli

of the Massachusetts Tuberculosis and Health League, Inc. presided, kits containing suggested guidelines on smoking and health were distributed.

It was reported that these kits are being mailed to all school principals in Western Massachusetts and members of the Ad Hoc Committee on Smoking will receive the names of all who have been sent kits and will be prepared to furnish educational materials listed in these kits. Committee members were also urged to follow up on the delivery of kits to propose ways in which the campaign on smoking may be implemented.

The ad hoc committee plans to meet the second Thursday of each month, starting September 14, the place tentatively set for the Howard Johnson Restaurant in Amherst.

Those attending, in addition to Mr. Carvelli, Miss Fitzgerald and Mrs. Smith were: Mrs. Prescilla L. Abbott, Berkshire-Franklin TB Association; Janet P. Houston, Hampshire County Public Health Association; Louella S. Mushovic, American Cancer Society, Greenfield; Clyde Sayles, Western Chapter, Mas-

sachusetts Heart Association; Bess Wilson, Hampshire County TV and Health Association; Richard H. Prescott, Massachusetts Department of Public Health, Amherst; Eleanor Webster, Holyoke TB, Respiratory Diseases and Health Association.

AGAWAM YOUTH WILL HOLD DANCE SATURDAY NIGHT

The Agawam Youth Organization will sponsor a dance Saturday, June 17, at the Robinson Park School from 8-11 p.m. The general public is invited.

Entertainment will be provided by the "Curries." Refreshments will also be served.

The money raised will be used to help bring a well-known band to Agawam in the near future.

Cherry is the undisputed leader among flavors for medicinal preparations.

UNIVERSITY OF MASSACHUSETTS

Amherst, Mass. — The University of Massachusetts has announced the names of the largest graduating class in its history — the approximately 1850 undergraduates, graduates and Stockbridge School students who are candidates for degrees awarded at commencement Sunday, June 4.

UMass, President John W. Lederle conferred degrees on approximately 1400 undergraduates, 250 graduates and 213 Stockbridge School students in

ceremonies beginning at 11 a.m. in UMass Alumni Stadium. Gov. John A. Volpe was commencement speaker.

Among graduates were the following Agawam residents: Louis V. Andreoli, Jr., 80 Broz Terr., B.A.; Carol S. Bissonnette, 21 Mulberry St., B.A.; Edward E. Gossman, 70 Belvidere Ave., B.A.; John F. Kosinski, 227 N. West St., B.A.; Joan V. Magistri, 107 Franklin St., B.A.; Cynthia L. Statkun, 20 Edward St., B.A.

NORTHFIELD SCHOOL

NORTHFIELD, MASS. — Among the 160 candidates for graduation from Northfield School at the 84th Commencement Exercises held on June 11 was Regina Mary Harrington of Agawam, daughter of Mr. and Mrs. Clayton F. Harrington, Sr. of 771 Suffield Street.

Miss Harrington will attend Boston University, Boston, Mass.

WESLEYAN UNIVERSITY

MIDDLETOWN, CONN. — Henry A. Kozloski of Agawam, Mass., a teacher at West Springfield High School, received the degree of Master of Arts in Liberal Studies at Wesleyan University's 135th Commencement here on June 4. More than 150 advanced degrees and 250 undergraduate degrees were conferred during the afternoon ceremonies.

Mr. Kozloski, a graduate of Springfield College, earned the M.A.L.S. degree at Wesleyan's Graduate Summer School for

Teachers.

The purpose of the summer program is to provide teachers and school administrators with an opportunity to extend their liberal education through increased command of their own and related subjects, and to undertake advanced study in one academic area.

More than 400 teachers have already earned the M.A.L.S. or C.A.S. at Wesleyan, and the summer school expects to enroll nearly 550 students this year.

AMERICAN UNIVERSITY

Among graduating seniors from Massachusetts at American University was John F. Litchfield, 54 Mountain View St., Agawam.

(Continued from page 1)

stores and markets. Garbage is the animal and vegetable waste resulting from the preparation, cooking, and serving of food.

1.24 SMOKE means a visible gray or black aerosol resulting from combustion of organic material and may include fly ash.

1.25 VAPOR means the gaseous state of certain substances that can exist in equilibrium with their solid or liquid states under standard conditions.

Regulation 2. General Prohibition of Emissions

No person or persons owning, leasing, or controlling the operation of any air contamination source or sources shall willfully, negligently, or through failure to provide necessary equipment or facilities or to take necessary precautions, permit the emissions from said air contamination source or sources of such quantities of air contaminants which will cause, by themselves or in conjunction with other air contaminants, a condition of atmospheric pollution.

Regulation 3. Open Burning

3.1 No person shall cause, suffer, allow, and permit open burning, except as provided in this regulation.

3.2 Regulation 3.1 shall not apply to open burning for cooking purposes, or to the operation of devices such as tar kettles, blow torches, welding torches, and portable heaters which utilize an open flame.

3.3 Trees, stumps, brush, logs, or waste lumber shall not be burned in the open by any person, unless such person has obtained, pursuant to Section 13, Chapter 48, General Laws, a properly executed permit therefor and PROVIDED FURTHER that such permit has been approved by the Department.

3.4 Leaves shall not be burned in the open by any person during such periods as the Department may determine that such action will result in or contribute to atmospheric pollution. The Department will notify the public of the imposition of a ban on the open burning of leaves pursuant to this section through public announcements. During such periods as the Department does not prohibit open burning of leaves pursuant to this section, provisions of other laws, ordinances, and regulations of all municipalities and agencies pertaining to leaf burning shall continue to apply.

3.5 No material shall be burned in the open for the purpose of training or research in fire protection or prevention unless a properly executed permit has been obtained pursuant to Section 13, Chapter 48, General Laws, and PROVIDED FURTHER that such permit has been approved by the Department.

Regulation 4. Incinerators

4.1 No person shall dispose of refuse by burning in any incinerator not approved for such purpose by the Department.

4.2 Written approval by the Department is required of final plans and specifications for incinerators having a nominal rated capacity of 20,000 pounds or more per 24 hours of continuous operation, or a horizontal combustion grate area (equivalent) of 10 square feet or more, whichever shall be the lesser.

4.3 No such incinerator shall be constructed, substantially reconstructed, or thereafter operated without such approval. The Department's approval shall be limited to matters which, in the Department's opinion, may affect the ability of the incinerator to perform its intended function or which may affect the degree of air contamination created thereby. The Department will consult relative to design criteria and preliminary plans of such incinerators upon request.

Regulation 5. Fuel Burning Thermal Energy Utilization Units and Appurtenances

Written approval by the Department is required of final plans and specifications for fuel burning thermal energy utilization units and appurtenances having an energy input capacity equal to or greater than ten million (10,000,000) British Thermal Units per hour. No such unit and appurtenance shall be constructed, substantially reconstructed, or thereafter operated without such approval. The Department's approval shall be limited to matters which, in the Department's opinion, may affect the degree of air contamination created thereby. The Department will consult relative to design criteria and preliminary plan of such fuel burning thermal energy utilization units and appurtenances upon request.

Regulation 6. Fuels

6.1 On and after July 1, 1967 no person shall cause, suffer, allow, and permit any solid fuel other than the following to be burned or consumed in any hand-fired furnace:

- Anthracite coal
- Coke
- Wood and/or paper during the building of a new fire
- Other solid fuels PROVIDED the use of such will not result in violation of any other provision of these regulations and PROVIDED FURTHER that prior written approval of the Department has been granted for such use.

Regulation 7. Emission of Smoke

7.1 No person shall cause, suffer, allow, and permit the emission from any air contamination source of smoke which has a shade, density, or appearance equal to or greater than No. 2 of the Chart for a period or aggregate periods of time in excess of six minutes in any one hour, provided that at no time shall the smoke have a shade, density, or appearance equal to or greater than No. 3 of the Chart.

7.2 No person shall cause, suffer, allow, and permit the emission, from any air contamination source constructed after the effective date of these regulations, of smoke which has a shade, density, or appearance equal to or greater than No. 1 of the Chart for a period or aggregate periods of time in excess of thirty minutes in any one hour, PROVIDED that during the said thirty minutes the smoke shall not have a shade density, or appearance equal to or greater than No. 2 of the chart for a period of time in excess of three minutes, and provided further that at no time shall the smoke have a shade, density, or appearance equal to or greater than No. 3 of the Chart.

Regulation 8. Severability

Each of these regulations shall be construed as separate to the end that if any regulation or section, sentence, clause, or phrase thereof shall be held invalid for any reason, the remainder of that regulation and other regulations shall continue in full force.

CAMP WONDERLAND
CAMP UNDERWAY

A full summer program at The Salvation Army's Fresh Air Camp, Camp Wonderland kicks off June 15th with Bay State Home League ladies meeting at

the 100-acre site in Sharop for the annual "Clean Up Day."

Home League members will spend the day opening the 50 structures around the Camp. Camper and mother cabins, dining hall, activity lodges and staff cottages will be scrubbed in

preparation for Wonderland's 43rd season, serving children and adults from across the Commonwealth.

Over 2000 campers are expected here before the season ends on Labor Day for their return to school rooms.

Sharing the grounds with working Salvation Army Home Leaguers will be members of the Women's Auxiliary who are scheduled to hold their regular monthly meeting as an introduction to the camp and its program.

Saturday, June 17th, will find the Salvation Army hosting a seminar for volunteer leaders from Advisory boards, councils, committees, and Service Extension Units from over 250 Massachusetts communities. Starting at 10:00 a.m. they will receive a comprehensive introduction in the Salvation Army's program in Massachusetts, the functions of Advisory Boards and Service Units and Salvation Army support in Massachusetts. At a 5:00 p.m. dinner, State Advisory Conference Chairman Oliver T. Bergstrom of Winchester will speak on "How to serve most effectively as a member of Salvation Army volunteer organizations." Also included will be a tour of the camp and briefing on the summer program.

On Tuesday and Wednesday, June 20 and 21, Wonderland will entertain women from across the Bay State for the 2-day Annual Home League Camp under the leadership of Mrs. Lt. Colonel John W. Baggs, Director of Women's Services, and Mrs. Brigadier Norman E. Sampson, Home League Secretary.

Camp Wonderland opens in earnest on Saturday, June 24th, as a two-day Junior Soldier Camp and a 10-day Senior Citizens period get underway simultaneously. From that time on there will not be a quiet day until the gates swing shut behind the last bus load of homeward bound boys and girls.

The Salvation Army, in its tradition of serving those in need, provides 10-day fun-filled camping periods for youngsters participating in regular Corps-centered programs, for children needing the experience of a community service camp, mothers with small children and senior citizens.
